

# Nishant Chorge

SOFTWARE ENGINEER · FULL-STACK DEVELOPER

Mumbai, Maharashtra, India · Open to New Opportunities

+91 62839 25737 | [itsnishantcharge@gmail.com](mailto:itsnishantcharge@gmail.com) | [nishant.click](https://nishant.click) | [linkedin.com/in/nishant-charge](https://linkedin.com/in/nishant-charge) | [github.com/NishantJS](https://github.com/NishantJS)

## SUMMARY

Full-Stack Software Engineer with nearly 4 years of experience building production-grade fintech and enterprise systems. Shipped 10+ products across the MERN and Next.js / NestJS ecosystems, with deep focus on SSE real-time feeds, micro-frontend architecture, multi-layer caching, and resilient, low-latency APIs. Most recently built trading and advisory platforms at Mirae Asset Capital Markets via Finquest Consulting.

## TECHNICAL SKILLS

**Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+), Redux, Redux Toolkit, Micro-Frontend, Material UI (MUI), Tailwind CSS, SCSS, GSAP, Framer Motion

**Backend:** Node.js, NestJS, Express, Fastify, REST APIs, SSE, WebSockets (Socket.io), Microservices, Passport.js, JWT, SAML / SSO, Sequelize

**Databases & Caching:** MongoDB, PostgreSQL, MySQL, Redis, Redis Streams, Multi-layer (L1/L2/L3) caching, ETag, Cache-Control

**DevOps & Cloud:** Docker, Nginx, AWS (S3, EC2), Kong Gateway, Supabase, Keycloak, Nx Monorepo, Git

**Testing:** Jest, React Testing Library, Playwright

## PROFESSIONAL EXPERIENCE

### Finquest Consulting (Client: Mirae Asset Capital Markets)

Sep 2025 – Jun 2026

Software Engineer

Mumbai, MH

- Revamped the m.Stock Refer & Earn platform from legacy .NET to a modern Next.js + Fastify stack, improving speed and scalability.
- Cut stored-procedure execution time by ~75% by moving heavy filtering and sanitization out of the DB layer; split a monolithic SP serving 3 APIs into separate endpoints with use-case-specific cache TTLs.
- Built a real-time referral feed using SSE + Redis Streams, reducing latency from ~5s polling to ~1s updates and cutting API load.
- Designed multi-layer caching (memory + Redis + DB) with event-driven invalidation, idempotent APIs, and circuit breakers (Opossum) for resilient, fault-tolerant systems.
- Built scalable backend services for a stock advisory platform (Smallcase-like) handling portfolio and basket management with Fastify + NestJS.

### Futurescape Technology

Apr 2023 – Aug 2025

Software Developer

Navi Mumbai, MH

- Built a dynamic form & table system (Nx + Next.js + RJSF + MUI DataGrid) powering complex, configurable workflows and reducing development effort.
- Designed a micro-frontend architecture for modular, scalable feature delivery; led frontend for an SSO platform (Supabase + Keycloak) with RBAC.
- Maintained strong code quality with unit, integration, and end-to-end testing (Jest, RTL, Playwright).

### Pinsout Innovations

Aug 2022 – Mar 2023

Software Developer

Noida, UP

- Developed backend APIs for a multi-role job portal (employer, mentor, student, educator) and built a real-time chat system using WebSockets.
- Implemented a wallet and payment system with secure transactions, and led frontend for employer workflows with a focus on performance.

## KEY PROJECTS

- **m.Stock Refer & Earn** — legacy .NET → Next.js + Fastify migration with SSE + Redis Streams real-time feed. · [refer.mstock.com](https://refer.mstock.com)
- **Advisory Basket** — Smallcase-style stock advisory backend on Fastify + NestJS with event-driven caching. · [mstock.com/advisory](https://mstock.com/advisory)
- **Qollabb** ([qollabb.com](https://qollabb.com)) multi-role job portal with WebSocket chat; **OneDashboard** SSO (Supabase + Keycloak, SAML, RBAC); **OneSociety** micro-frontend platform; **ConsultMyAstro** real-time chat, call & wallet.

## EDUCATION

Lovely Professional University (LPU) — Master of Computer Applications (MCA), CGPA 8.8

Aug 2021 – May 2023
